

Jackie Li (Man Yip Li)

Artificial Intelligence & Data Science Professional

jackie.li92@gmail.com | <https://www.linkedin.com/in/jackie-man-yip-li-66b720aa/>

Professional Profile

Artificial Intelligence and Computer Science professional with experience spanning data analysis, machine learning, operational support, investigations, and business process improvement. Currently working within the Civil Service, I combine analytical thinking, evidence-based decision making, and stakeholder engagement in a fast-paced public sector environment. My academic background includes an MSc in Artificial Intelligence and Applications and a BSc (Hons) in Computer Science. I also hold additional certifications in data science and machine learning. I have developed projects involving predictive modelling, natural language processing, speech recognition, recommendation systems and image classification

Technical Skills

Programming Languages: Python, SQL, Java, C++, C

Machine Learning & AI: Scikit-learn, PyTorch, Deep Learning, NLP, Speech Recognition, Computer Vision, Recommendation Systems

Data Science & Analytics: Pandas, NumPy, Predictive Modelling, Statistical Analysis, Time Series Forecasting, Feature Engineering

Data Visualisation & BI: Matplotlib, Power BI, Exploratory Data Analysis (EDA), Dashboard Development

Tools & Platforms: Jupyter Notebook, Google Colab, Git, GitHub.

Professional Experience

Investigative Assistant | Crown Office and Procurator Fiscal Service | Dec 2025 – Present

- Manage complex investigations in collaboration with Police Scotland and partner agencies. • Analyse evidential material and provide recommendations supporting prosecutorial decision-making.
- Prepare detailed reports, case documentation and investigative records.
- Maintain compliance with legal, evidential and data-protection requirements.

Office Services Management Assistant | Crown Office and Procurator Fiscal Service | Sep 2023 – Dec 2025

- Provide operational support across multiple offices and departments.
- Collect, analyse and report organisational data for audits and compliance activities.
- Led a climate-change reporting initiative focused on carbon emissions and sustainability metrics.
- Coordinate procurement, contractor management and health & safety activities.

Home Sales Consultant | Next Retail Ltd | Apr 2019 – May 2024

- Delivered high-quality customer service through strong product knowledge and communication.
- Supported stock management, merchandising and operational activities across departments.
- Contributed to a collaborative and customer-focused retail environment.

Data Entry Clerk | Parseq | Aug 2017 – Oct 2017

- Processed high-volume customer data while maintaining exceptional accuracy.
- Responded to member enquiries and supported information services.
- Developed strong attention-to-detail and data-quality management skills.

Education

University of Edinburgh — Data Skills Workforce Development (2024–2025)

University of Strathclyde — MSc Artificial Intelligence and Applications (2019–2021)

Dissertation: Speech Recognition Systems for Closed Captioning Accuracy Across Diverse Accents.

University of Strathclyde — BSc (Hons) Computer Science (2012–2017)

Dissertation: Interactive Mobile Application for Children's Vocabulary Development using NLP and ASR.

City of Glasgow College — HNC Information Technology (2011–2012)

Selected Projects

- Speech Recognition & Closed Captioning Research
- Financial Time-Series Forecasting Models
- Spam Detection using Natural Language Processing
- Image Classification Systems
- Recommendation Systems
- Fraud Detection Analytics

Professional Certifications

Supply Chain Management (RGU, 2026)

Introduction to Programming in Python (RGU, 2025)

Computer Vision for the Energy Sector (RGU, 2025)

Data Analytics for Business Decision Making (RGU, 2025)

Practical Introduction to Data Science (University of Edinburgh, 2024)

Data Science for Manufacturing (University of Edinburgh, 2024)

Introduction to Data Science with Python (RGU, 2023)

AWS Academy Machine Learning Foundation (Abertay University, 2023)

Fundamentals of Python for Data Science (Edinburgh Napier University, 2023)
